### **RE: ZOOM E - LEARNING PROGRAMME**

Due to the prolonged closure of Schools, occasioned by the outbreak of COVID-19 pandemic, it has now become necessary to adopt the e- learning programs.

We have created a program for class 5 and 6 both of Tassia School children and any other child that is interested.

We encourage all parents with children in these two classes to support them to join this new way of teaching and learning.

We have outsourced an expert, who, together with the teachers have put made a schedule.

For your son/daughter to gain maximum benefits from this programme, you (parent) need to ensure the preparations are put in place:

1. Teaching/learning will begin on 29<sup>th</sup> June. You are expected to have paid the fee of Ksh. 4,000 per month per child, so that by 6<sup>th</sup> July all those registered will start off properly together. Your cooperation here is very crucial.
2. Provide a tablet, laptop, or smartphone.
3. Reliable network is available.
4. Provide a quiet study area.
